WOLFE NURSERY

STEPHENVILLE, TEXAS

Dear Friends and Customers:

It is a pleasure to hand you my new catalogue of the finest and most select varieties of fruit and nut trees. My life has been devoted to the task of propagating and selecting new and better varieties for our home and commercial orchards. I have grown hundreds of varieties and have thoroughly tested and selected only those that are the very best.

I feel fortunate in having the advice of such great plant breeders as the late E. E. Risien, wizard in producing fine paper shell pecans, the late T. V. Munson, world famous for his grape culture, and the late J. W. Stubenrauch (originator of heavy-bearing, frost-resistant peaches).

Our stock is grown in select fertile soil under ideal conditions and propagated with most modern methods. Our system of budding trees insures quicker growth, early, and heavy production.

My motto is that every customer will be more than pleased with our stock and no time is wasted in complying with any request that will help you with your orchard problems.

As your nurseryman I will always faithfully do the task of giving Texas and the great Southwest my best, in order to make our homes more beautiful and fruitful.

Gratefully,
Ross R. Wolfe.

Ross R. Wolfe, President Wolfe's Nursery; Past President of Texas Association of Nurserymen; Member of American Association of Nurserymen.

Mrs. Ross R. Wolfe, my constant companion and helper.

Hugh Wolfe, back to give you better service.

WE PAY THE POSTAGE

Please note that most items in our catalogue are delivered to your door post-paid. However, some of the trees are too large to ship by mail and must be shipped Express Collect. Where part of your order is Express and part Mail, it will be shipped by Express in order to avoid making two separate shipments. For the privilege of shipping by Express, we will include extra stock that will more than pay for the Express charges.

If your order is received late in the year, it is likely to be substituted with like varieties in order that your shipment may be packed complete. If this provision is all right by you, please check same on our order blank.

MONEY-BACK GUARANTEE

MONEY BACK GUARANTEE. When you receive Wolfe trees and plants, all merchandise you receive is with a money-back guarantee. Any time you are not completely satisfied, just let us know and your money will be returned in the same mail. The only guarantee we make on nursery stock is that it reaches you in first class living condition. We do not guarantee our plants to live. We exercise the greatest care possible to keep our varieties true to name and any tree sold by Wolfe Nursery which is not true to name will be replaced or the purchase price refunded when proper proof has been presented. It is mutually agreed between Wolfe Nursery and our customers that we will in no case be liable for more than the original purchase price. This is due to varied climatic conditions and careless handling on the part of a few of our customers. You will be glad that you bought from Wolfe Nursery.

IMPORTANT!

Due to the scarcity of packing materials and labor **WE CANNOT ACCEPT ANY ORDER FOR LESS THAN ONE DOLLAR.**

PLEASE, NO C.O.D.

We are happy to have your order any way that you desire to send it, but to avoid unnecessary trouble and expense on your part and speed delivery we are asking that all orders be accompanied with check or money order.

All orders will be shipped the same day they are received unless we are held up by weather conditions and labor shortage.

FREE PLANTING GUIDE

Handy 16-page illustrated booklet that will solve your planting problems. Pocket size with book size information.

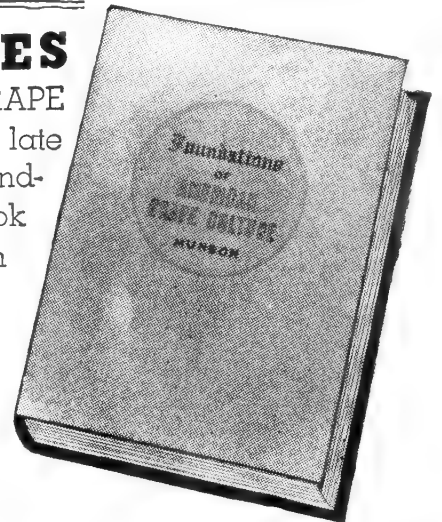

With every order of \$5.00 or more we include this wonderful book that tells you how to care for trees upon arrival, pruning, before planting, preparation of ground and distance of planting. It tells you how to plant roses, shrubs, evergreens, bulbs, perennials, berries, grapes, fruit trees, asparagus, rhubarb, strawberries and almost everything about planting. It will give you brief information as to the control of insects and diseases.

If your order is of \$5.00 or more **you will receive one free**, but if you decide you want one and your order is less than \$5.00 **please include 10c.**

KNOW YOUR GRAPES

The "FOUNDATION OF AMERICAN GRAPE CULTURE" is a large book written by the late T. V. Munson, **world famous** for his outstanding work on grape culture. This is a book

every grower should have. It will give you valuable information on planting your grape vineyard, information on growing, preparation of soil, pruning, and harvesting. This big book contains 252 pages with 17 full page illustrations. We only have a **LIMITED NUMBER** of these books left and are offering them to you at a greatly reduced price of **only \$1.50 per copy, prepaid.**

PLANT WOLFE'S ASPARAGUS and RHUBARB FOR BETTER EATING

ASPARAGUS—WASHINGTON

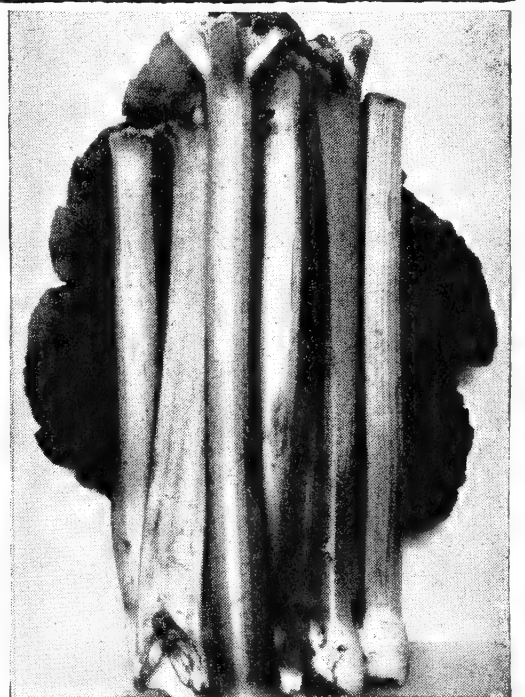

MARTHA WASHINGTON ASPARAGUS PLANTS

Introduced by the U. S. Department of Agriculture a few years ago. Has been the main-crop Asparagus variety for home, market, and canning. Produces large, tender, green tips. Famous for its mild, rich, full flavor.

A few roots produce many tips. Plant them 12 inches apart in the garden. In the field, the rows can be 4 feet apart. 5,000 roots will plant an acre. **Price: Per dozen plants, \$1.00, postpaid.**

VICTORIA RHUBARB

The first plant to furnish fresh sauce for pies in springtime. Will last a lifetime. Will provide lots of juicy stalks after the first year. Plant 2 feet apart. Set the roots straight up and down, with the crown about 2 inches below the surface of the soil. **Price: Per dozen plants, \$1.50, postpaid.**

DIRECT FROM OUR

WOLFE'S INDIAN CHIEF

INDIAN
CHIEF

WOLFE'S INDIAN CHIEF. Cling. Ripens July 20. \$100.00 reward for better Indian peach than ours. I have three of these peaches in my office that completely fill a HALF-GALLON jar—the finest pickling peach in the land; 21-year-old trees here in Stephenville are still healthy and bearing the finest large, red-fleshed, red-skinned peaches I have ever seen. A grand peach for home or market.

3

ROSS WOLFE'S INDIAN CHIEF SPECIAL. This is the old-time Indian peach we knew when we were boys. Three strong, heavily rooted trees. **Prepaid.**

ROSS WOLFE'S SPECIAL OFFER No. 4-A

1⁰⁰

WOLFE'S NEW ELBERTA

Freestone. Ripens June 20. Just as the name implies, this is a new Elberta that beats all other peaches of its class to the market. Commercial growers have welcomed this variety as a precious gift to early marketing. Take our word for it and plant a peach that will make money. This variety is a winner because it frequently bears at two years old, produces heavy crops. Scarlet red covering, so brilliant that fruit on trees can be seen at a distance; the meat is very fine, with small seed, perfect freestone and very delicious. It usually bears when other peaches fail.

New Elberta Peach Trees, 1 Year

Prepaid

OFFER No. 2

1⁰⁰

TEXABERTA

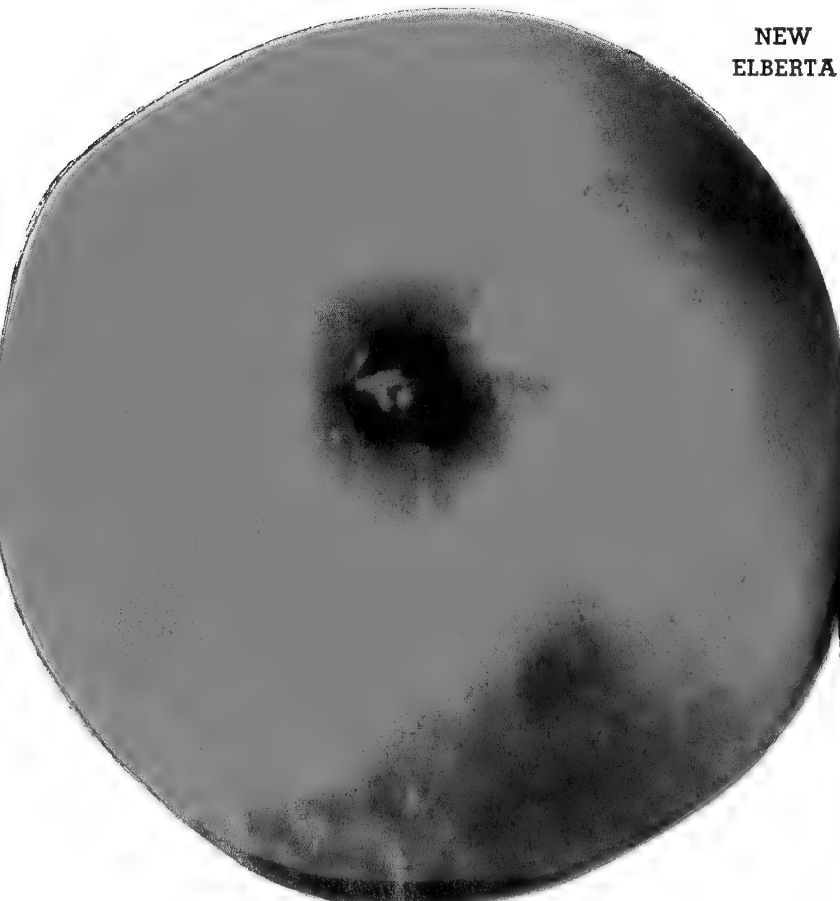

WORLD'S MOST PERFECT PEACH. Freestone, ripens July 10; combine the best peach qualities... add a few and you have the Texaberta. A peach that is a peach of a peach. Frost resistant. Twenty consecutive years without failure; dark red flesh around the seed, forming into deep yellow flesh; the most delicious peach you have ever eaten—**DISEASE RESISTANT!** Grows well in mild climate where Elberta is a failure, bears very young, good shipper. See the young Texaberta tree on page 6.

WOLFE'S FRANK

The best cling peach grown—HOLDS THE WORLD'S PRODUCTION RECORD. Forty-three years at Mexia, Texas, without missing a crop. Ten bushels from a three-year-old tree in Reeves Odiorne orchard, setting a new record. Ripens August 10, when good peaches are in demand. Growers are making from \$300.00 to \$500.00 an acre from heavy bearing Frank trees. Beautiful, sweet, acid free, juicy flesh, and oh, so good. Growers say that Wolfe's trees prove that "MONEY DOES GROW ON TREES." Farm and Ranch says "most outstanding peach produced in Southwest." For the genuine Frank get it at Wolfe's.

PRESIDENT ROOSEVELT

PRESIDENT ROOSEVELT. Freestone. Ripens June 20. It is similar to Texaberta in size, color, size of seed, flavor and shipping quality. This big yellow freestone ripens just after Early Wheeler and seems to be extra FROST-RESISTANT. The big delicious peaches hang on the tree remarkably well after they are ripe. We recommend it highly.

WOLFE'S FAMOUS FRANKIE

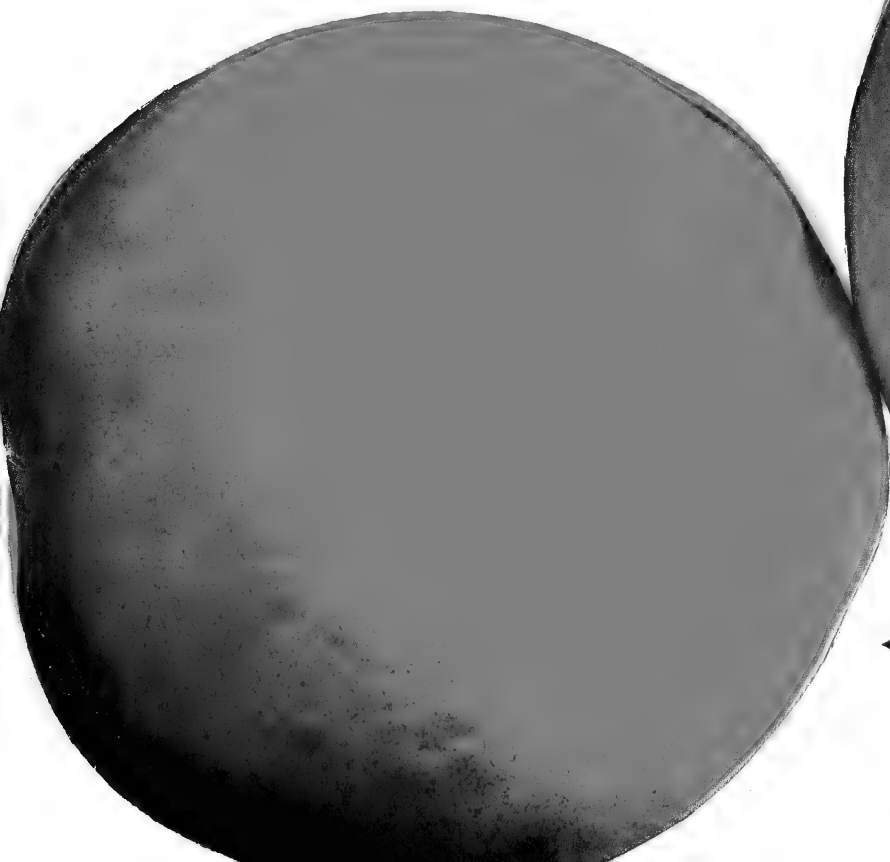

A freestone FRANK. Ripens August 15. A large beautiful peach with all the qualities of the Frank. Sold only by Wolfe. Frankie is a heavy producer . . . even during years of late frost . . . disease-resistant, two of the many qualities that put it in the Money Class. It has a color that sells; rich yellow with bright red sun-kissed cheeks. R. B. Alexander, oldest and most successful orchardist in the South, told the Number One Peach Association of Texas, in a meeting at Wolfe's Nursery, "If I were a young man, I would plant 1,000 acres of Frankie." Truckers say, "Frankie is one of our best shippers. Watch it make peach history."

WOLFE'S STANDARD

YOUNG BEARING HEAVILY ROOTED

MAYFLOWER. Semi-cling, ripens May 25. Earliest peach on market and valuable for home or commercial purposes. It is medium size, creamy-white skin, mottled with dark red; juicy and very delicious.

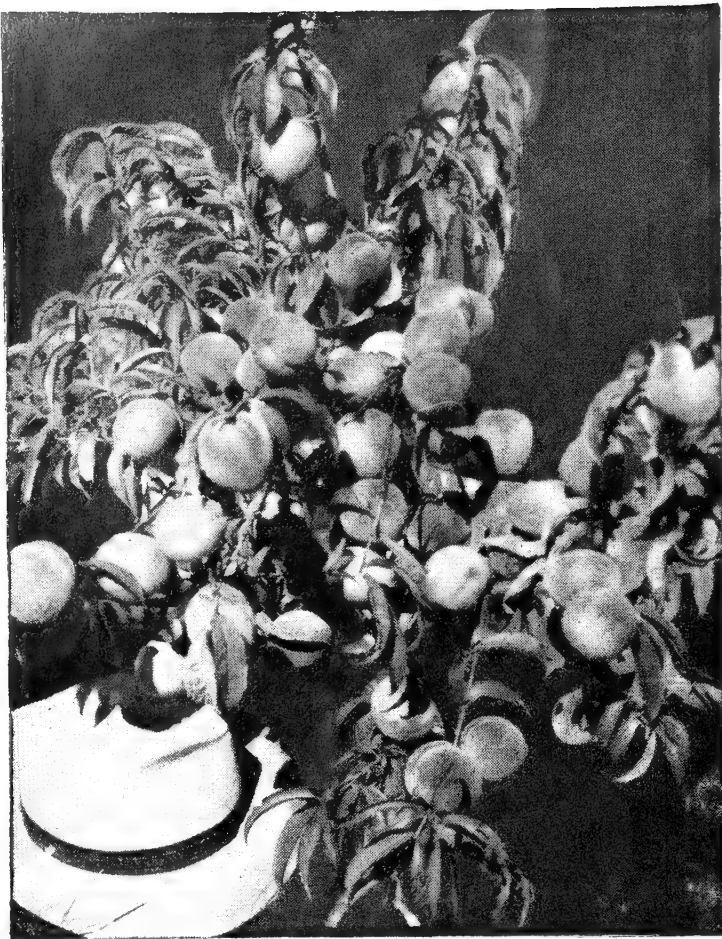

EARLY WHEELER. Cling, ripe June 5. Peach we sell for Early Wheeler is sold by Stark for Red Bird Cling. It is better colored and has the same size and shipping qualities.

SURPRISE. Cling. Ripens October 20. Good for eating, canning, pickle, preserve and commercial purposes. Due to its fine qualities, color and time of ripening, it has a great future as a valuable market variety.

RELIABLE PEACHES

HEAVY BEARING WELL BRANCHED

ELBERTA CLING

Clingstone, ripens July 5. This beautiful yellow Elberta is becoming more popular with growers each year. It is much larger than the old Elberta and has an outstanding trade value. The peaches are well shaped, hang on the tree well and are ideal for shipping. The trees are strong growers which makes it disease resistant. I have several of these trees producing in my own orchard and find it a most popular peach on the market. A steady dependable peach that will always make the United States number one grade. Plant Elberta Cling in your orchard.

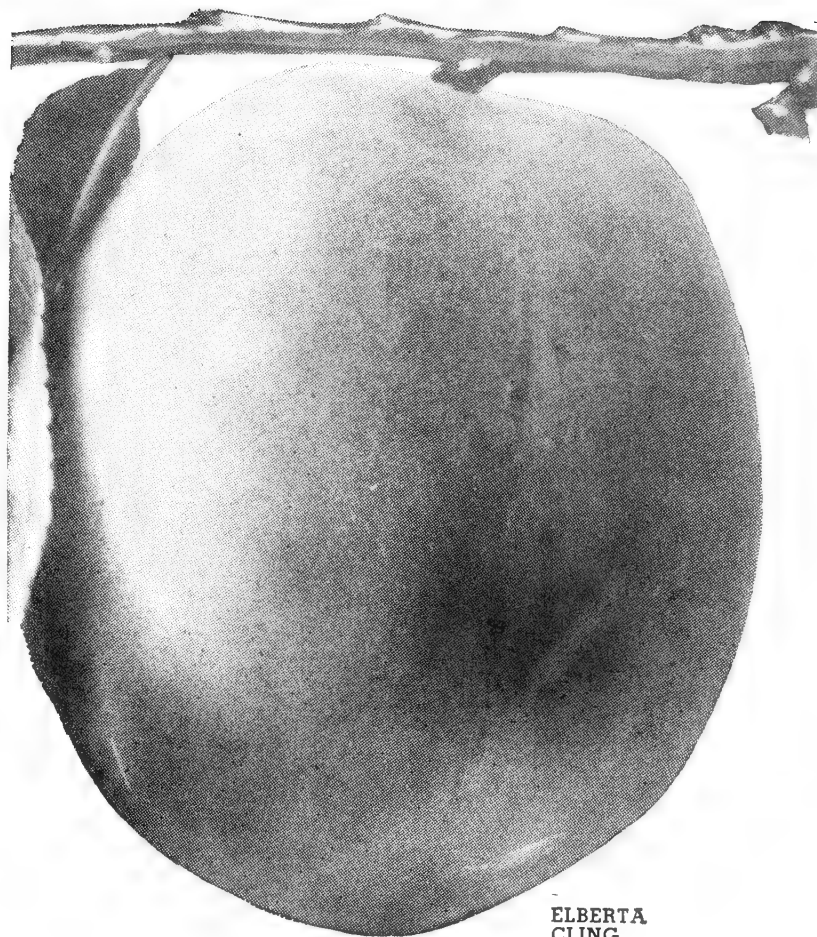

WOLFE GIANT HALE

Freestone, ripens July 15. Is a GRAND CHAMPION IN ALL SHOWS. The huge dark red Hale demands instant attention at all markets and sells like hot cakes at good prices. You can easily expect to get more per bushel from Wolfe Giant Hale than any peach in your orchard. See the half bushel basket of the State Grand Champion Hale at right.

Prices in this catalog are effective September 15, 1945 and supersede all previous quotations.

WOLFE'S FAMOUS HOME ORCHARD

COMPLETE HOME ORCHARD

8 Eight choice peach trees selected by Ross Wolfe so that you will have peaches ripening constantly from May through August. Here is what you get: such varieties as Mayflower, Early Wheeler, Hale Haven, Giant Hale, Elberta, Indian Chief, Frank, President Roosevelt, Surprise. **Postpaid.**

Offer No. 4B

ONLY
\$2⁴⁹

WE HAVE CUT OUR VARIETIES

TO GIVE YOU ONLY THE BEST IN FROST RESISTANT PEACHES

With many years of experience as a nurseryman I have carried on a lot of experiments on peach varieties. To give you the peaches that are most profitable, I have cut the number from over thirty to fourteen money making varieties. Why plant varieties that will fail to make you as much money as those that have proven successful?

HALEHAVEN

Freestone, ripens June 25. Cross between South Haven and J. H. Hale; large, beautifully colored, yellow-fleshed peach. Splendid shipper. Heavy producer and brings top prices. Second only to Elberta in popularity! Halehaven is one of the finest shipping and canning peaches grown. Every peach is a big hand full of delicious, tempting goodness. Juicy, bright colored, and with a flavor you will never forget. Halehaven has deep blushes of red nearly covering the surface. Brilliantly colored long before ripe; ripens fifteen days ahead of Elberta at a time when market pays highest prices for peaches. Freestone, perfectly self-fertile. Extremely hardy, prolific and pollinizes other varieties. **Prices on page 6.**

HALEHAVEN

IMPROVED PALLAS

If I just raised one peach it would be Improved Pallas, because of the healthiness of the tree, sure and heavy production, the large, white, freestone fruit, the small seed, and the honey flavor. This is a cross between the Honey Peach and some of our large white peaches that has produced a fruit the size of Elberta with the flavor of the Honey Peach. Regardless of where you live, if you just plant one tree, plant an Improved Pallas. **Prices on page 5.**

ELBERTA

Freestone, ripe July 10. This yellow peach needs no description. I have an improved strain of the original variety that bears heavier and more regular than the old variety. It is third to TEXABERTA and FRANK on the market. **Prices on page 6.**

OFFER No. 5

WOLFE'S PLUMS

FOR HOME AND MARKET

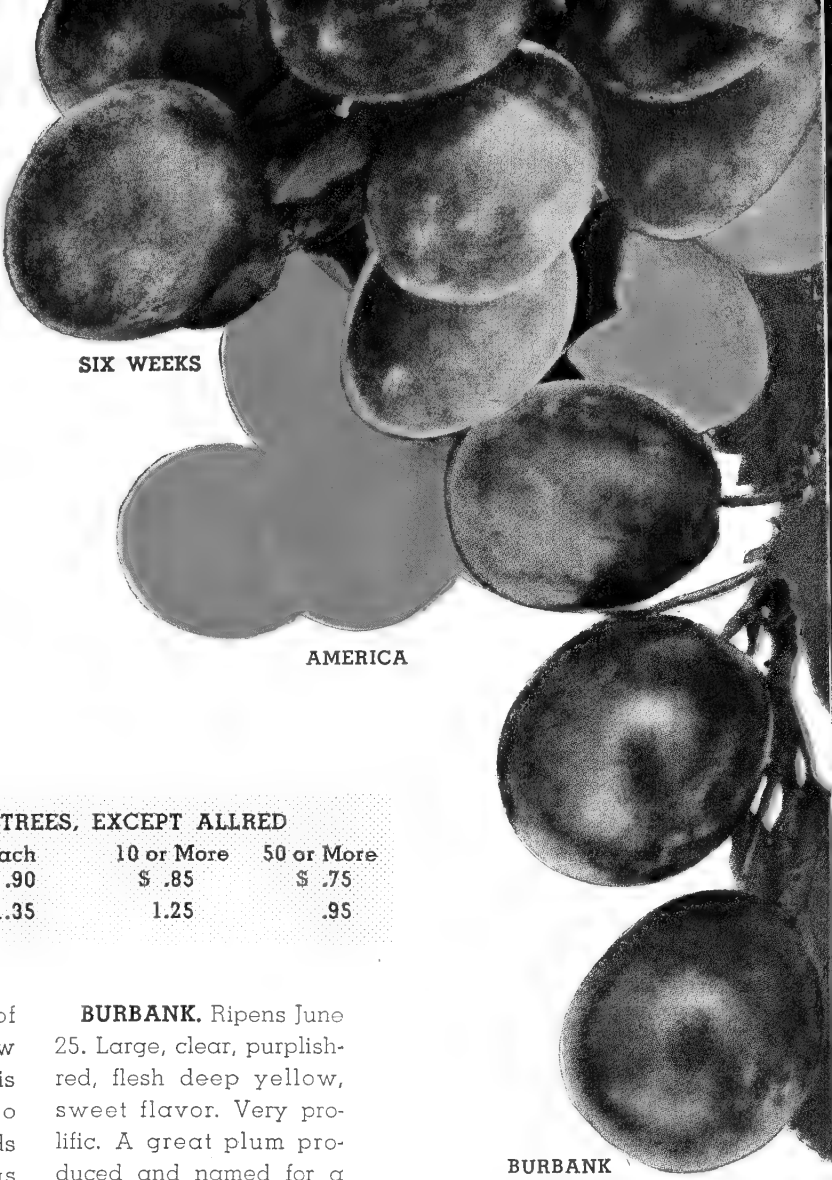

Every home with planting space should grow their own plums for fresh eating, jellies, jams, plum butter and canning.

Scarcely has any fruit been improved as much in the past few years as the plum. Bears younger and more heavily. The fruit is larger, with a more delicious flavor. WOLFE'S plums are the very cream of the selected varieties.

Plant plums 20 feet apart, in a group, so they can cross pollinize, thus greatly increasing the crop.

SIX WEEKS. Ripens the last part of May. Large bright red plum with excellent flavor. The earliest good plum on the market. Include Six Weeks in your home orchard for delicious eating and market.

AMERICA. Ripens June 20. Thrifty, symmetrical, spreading tree with medium to large fruit that is a bright golden color with pink cheeks. Firm flesh, clingstone.

SIX WEEKS

BRUCE. This is one of the best plums that grow in the South. The tree is very healthy, early to bear and produces loads of red plums nearly as large as hen eggs. It ripens in early June, and growers who shipped it in carloads from Texas to New York report it retailed for \$8.00 per bushel.

BURBANK. Ripens June 25. Large, clear, purplish-red, flesh deep yellow, sweet flavor. Very prolific. A great plum produced and named for a great man.

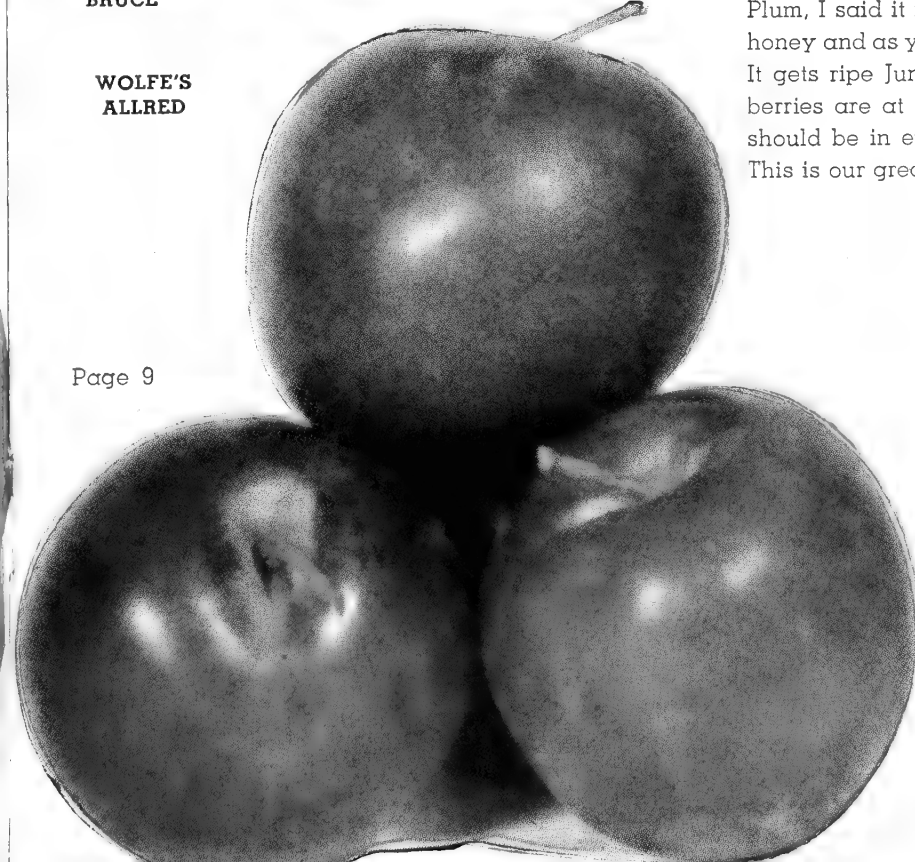

WOLFE'S MUNSON PLUM. When I tasted the Munson Plum, I said it is as sweet as honey and as yellow as gold. It gets ripe June 1 when the berries are at their best and should be in every planting. This is our greatest plum.

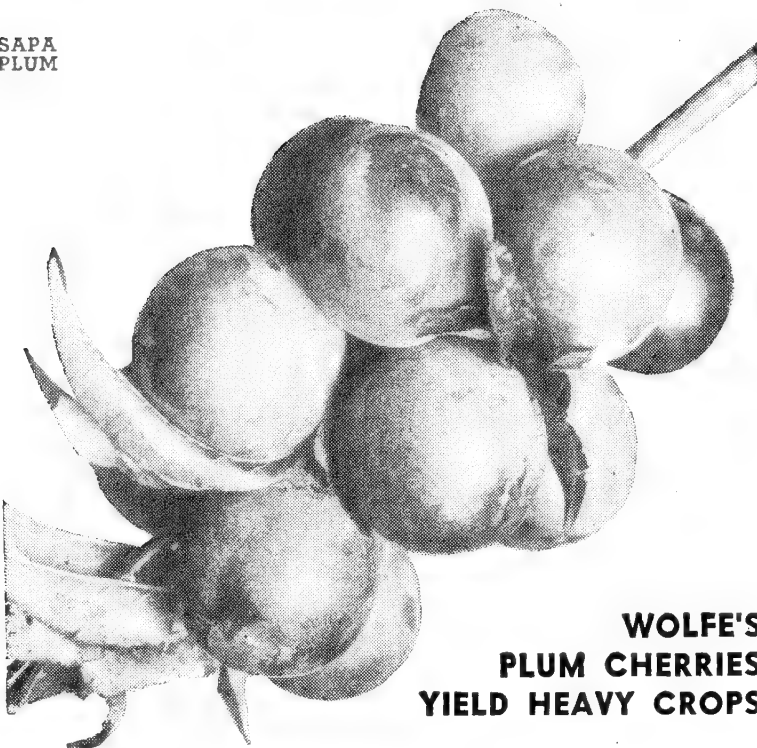

WOLFE'S MUNSON

WOLFE'S ALLRED PLUM. Beautiful to see, delicious to EAT and easy to admire. Allred is another of Wolfe's new varieties resulting from a never-ending search for new and finer fruits. Allred attracts the eye like a passing parade. It is medium in size, highly ornamental and produces regular crops of high-quality fruit. The leaf is red. The stem and branches are red. The fruit is red outside and inside and the seed is red. It is ALLRED. Many of the trees are used in landscapes for its beauty.

OPATA PLUM CHERRY

OPATA. Ripens the last of June. Also an extra heavy producer. Tree is very beautiful when in bloom and very fragrant. Medium size fruit, purplish-red, splashed with green, flesh light green and fine flavored . . . completely covers the long limbs. Clingstone.

SPECIAL OFFER NO. 7

This assortment includes three of our very best One-Year-Old, heavy-rooted PLUM trees. Postpaid for only
 \$1⁰⁰

Plant **Wolfe's Pears** **THE SURE MONEY CROP** *Good Pears in Demand—High Prices Paid*

KIEFFER. Large yellow with red cheeks. Wonderful flavor. Ripens from September to December. Our trees bear very young.

BARTLETT. Large, buttery, melting, rich flavor. Ripens last of July and August. Adapted to dry sections.

GARBER. Like Kieffer but ripens in August. Thrifty, heavy bearer, good eating and canning pear.

DOUGLAS. Douglas will put that RINGING noise back in your pocketbook. It is an early, heavy-bearing pear that sells for fancy prices on all the markets. Young two-and three-year-old trees are often loaded with the big, soft, juicy, delicious fruit. Best eating pear on the market. It is Blight Resisting, which insures healthy trees. Ripens the latter part of August.

WOLFE'S HARDY CHERRY TREES

The cherry is America's favorite fruit for all-around, year-around delicious eating. Pies and sauce when they're fresh. Preserves put away for a long winter. And, best of all, canned cherries so you can have those luscious pies throughout the year

WOLFE'S NEW BUSH CHERRY

Beautiful, dark red fruit that is excellent for jellies, jams and pies; it is FROST-RESISTANT, a sure and abundant bearer. This is a NEW variety sold EXCLUSIVELY by WOLFE. Ripens about August 1, will bear the second year after planting and will continue to bear very abundantly every year. A new variety for the Southern States that will make money for you. Order early as the supply is very limited. Price: 1-year plants, each, 75c.

3

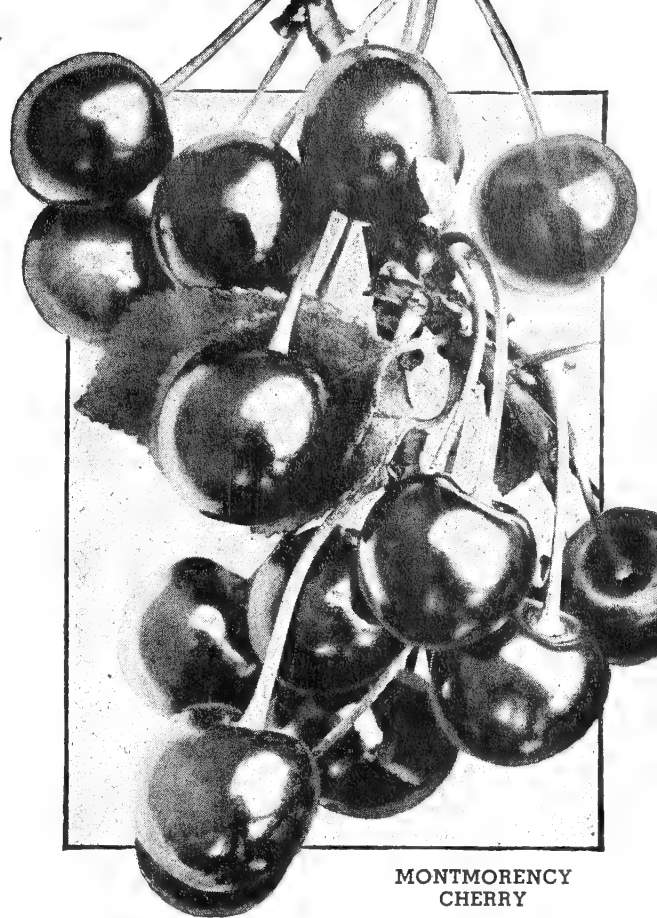

Wolfe's Bush Cherry, 1-year plants, prepaid

\$2⁰⁰

SPECIAL OFFER No. 10

HANSEN BUSH CHERRY

Dark red fruit that is excellent for jelly, jams and pies. Frost-Resistant, sure and abundant bearer. This is a new variety. Ripens around June 1. Bear the first year planted and will bear every year. Plant a row of these bush cherries in your yard or mix them with shrub plantings. Shapely, low-growing bushes, have silver green leaves which turn red in autumn. A glow of dainty white flowers in the spring; both practical and ornamental, will bear in sections where other cherries fail. Order early—supply limited. Prices: 2-year plants, 75c each, prepaid; 3-year plants, 95c each, prepaid.

EUREKA—Producing 28 big Persimmons in the nursery. Wolfe's system makes them bear young.

Wolfe's PERSIMMONS MAKE A "DISH FIT FOR A KING"

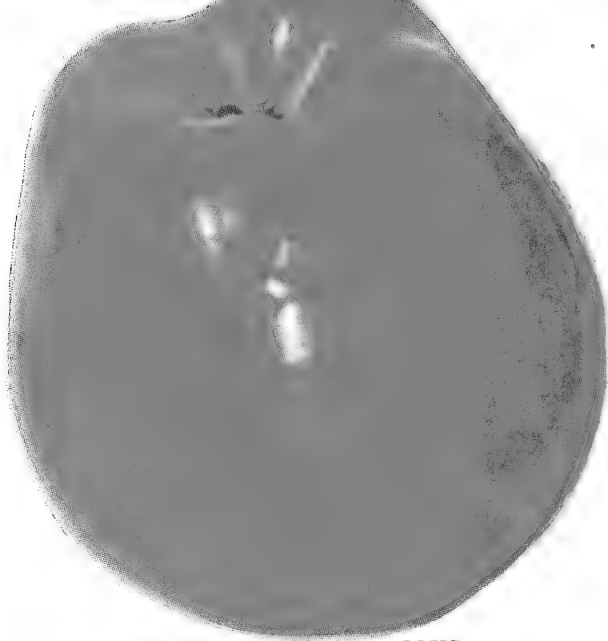

The leading fruit of the lower South. Demand increasing far in excess of their supply. Plant persimmons, the trees live 50 to 100 years. They bear very young, bear every year; the fruit is ornamental, delicious and easily sold.

TANE NASHI. Seedless. Finest quality to be had. Looks like a picture. It bears young and is FROST-RESISTANT. We have picked Tane Nashi when snow was on the ground. Best seller. Plant trees 20 feet apart.

EUREKA. Hardy variety, fruit looks like a huge red tomato. Very soft and makes a dish fit for a King when served with lemon juice, sugar and cream. Almost seedless. Ripe November and December.

DOUBLE RED DELICIOUS

LODI

WOLFE'S APPLES

Select for the South

DOUBLE RED DELICIOUS. The Double Red Delicious is just like Delicious, except it has more red; \$5,000.00 was paid for the original limb. I have the genuine stock. Several of our customers report they are making \$15.00 to \$25.00 per tree . . . proving that "MONEY DOES GROW ON TREES."

GOLDEN DELICIOUS. This apple is just like Delicious, except it is a golden yellow; good keeper and a real money maker. Ripens the same time as Delicious.

YELLOW TRANSPARENT. This mellow, yellow apple really gets ripe about June 10. The trees are very prolific and the apple is good for cooking and for early market.

KING DAVID. Mr. J. Frank Browning of Baird, Texas, the largest apple grower in this section, places King David and Holland at the top of his list for money makers. King David gets ripe in August and sells like hot cakes. King David and Golden Delicious are good pollinators for Delicious. An orchard of Holland and King David properly cared for will net \$100.00 to \$300.00 per acre.

ANOKA (The Youngest Bearer in the Apple Family!). Often starts fruiting the year after planted. Red and green striped, sub-acid, eating and cooking type. Crisp, white flesh. Ripens in late summer, bearing an enormous crop every year. Anoka will stand the coldest climates and most adverse weather conditions. Adapted to most any soil. Pollinizes other varieties.

WINESAP. Winesap is one of the most widely distributed and best known American apples. It can be thriving on both the Atlantic and Pacific seaboard. The trees are thrifty, hardy, young and regular bearers where given proper cross pollination. The apple is of medium size, dark red color, firm and juicy.

RED JUNE (Extra Young-Bearing Tree). Brilliant, glorious deep red summer apple of enormous size. No other summer apple can compare with it in size and beauty. A favorite in home, local and commercial orchards. Ships well. Commands high prices on the market.

LODI (Early Golden) New, Improved Yellow Transparent. Fruit large. Clear yellow. Oblong conic shape. Ripens few days after Transparent. Tree hardy. Often bears at 2 or 3 years. Has great promise. Good for eating and cooking—home yard and market.

THIS NEW HOLLAND WONDER APPLE SOLD ONLY BY WOLFE

The Horticultural Wonder that originated at Weatherford, Texas, was called to my attention by Mr. R. B. Alexander, the largest and most successful fruit grower in Texas. Holland has been a consistent and heavy producer for 31 years. Its outstanding commercial advantages are: (1) The fruit is firm, good packer, shipper, and one of the most delicious apples grown; (2) it ripens as early as our Frank peach and is on the market before outside apples are shipped in; (3) it hangs on the tree exceedingly well, giving the grower a longer selling season.

TRANSCENDENT CRAB APPLE (Siberian). Ripens in July. An attractive yellow color, splashed and striped with red; bears very young. Buds and blossoms exquisitely beautiful. Price same as Holland.

CARMAN

THE ALL-PURPOSE GRAPE

**PREPAID—
PRICES OF ALL GRAPES**

Small\$.30 each
Large50 each

CARMAN. Growth vigorous; foliage never attacked by leaf folder or mildew; prolific, cluster, conical, compact. Berries persistent, medium, globular, black with thin skin. Tough, never cracking, pulp meaty, firm and tender when ripe. Rich quality, superior to Concord; seeds easily leaving pulp. Ripe August 10. Makes good juice or wine.

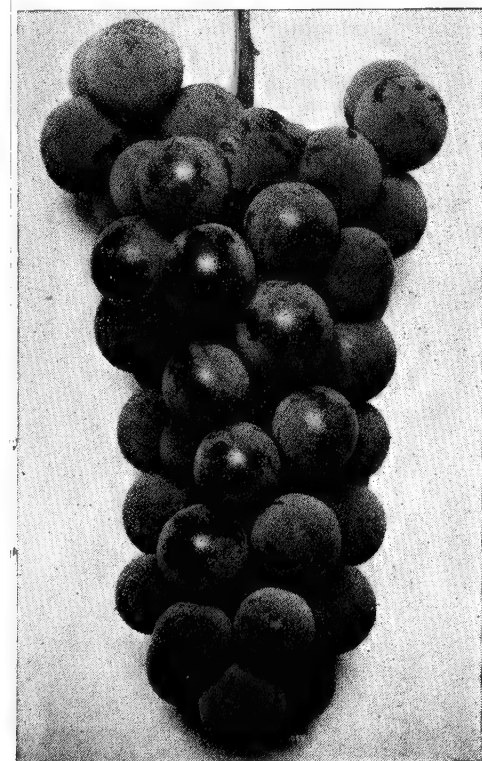

for TABLE WOLFE'S GRAPES for MARKET

BLACK SPANISH. A very prolific black grape. The clusters are somewhat open but very large. Small tasty berries. It is an excellent grape for jellies, grape juice, and wines. Adapted to the South and Southwest.

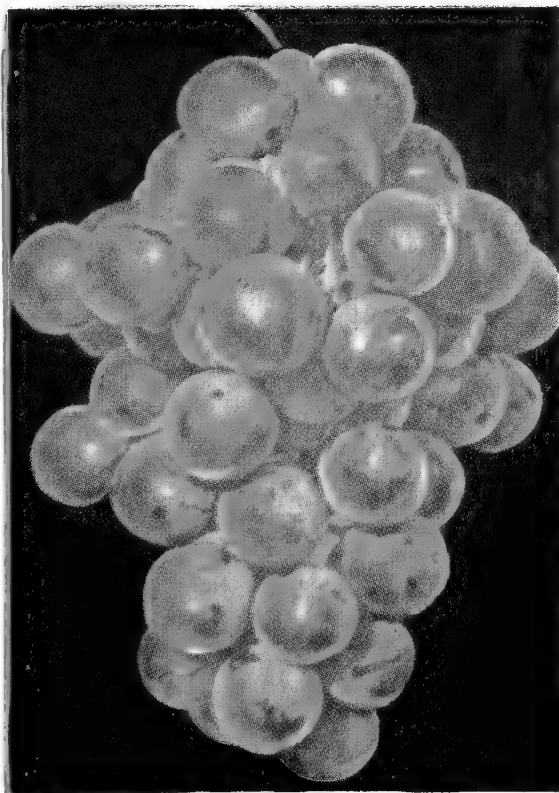

NIAGARA (The best white grape). Has large clumps with large greenish white berries changing to a pale yellow when fully ripe. Flesh is juicy and delicious. Skin is thin but tough, making it ideal for market. Definitely a money maker.

CONCORD. Most popular large, purplish black grape. Large shouldered, compact bunch. Flesh is juicy, sweet and tender, excellent flavor. Vine a strong grower, very healthy, hardy and productive. Ripens in August.

AMERICA'S FINEST

GRAPES FOR EVERY PURPOSE BEAR EVERY YEAR—LAST A LIFETIME

A dollars worth of grape vines will bring many dollars worth of fruit for a life time. Every home should have these wholesome, healthful fruits to eat fresh and have your own fine jellies, jams, sauces and juices. Grapes are easy to grow. We specialize in grapes, and are able to give you the finest in plants and varieties.

AMERICA. A medium size black grape with mottled skin and very large, rich in sugar, very drowth resistant, disease resistant and a heavy producer.

BAILEY. Vigorous grower producing large to very large clusters of huge black grapes. Ripens middle of July.

BRILLIANT. Strong grower that endures temperature from 15° below zero to the hottest Southwest weather. Large clusters of light to dark red grapes. Ripens early.

CAMPBELL'S EARLY. A large black grape adapted to a wide area. It is rather a light grower but a much better tasting grape than the Concord. This grape ripens in July.

DELAWARE. There has probably been a greater acreage planted to Delaware than to any other red grape. Flesh is juicy, very sweet, and of finest quality for both table use and wine making. Ripens early.

ELLEN SCOTT. A stocky, vigorous, healthy grower. Huge dark green clusters turning to a dark violet when ripe. A delicious eating grape that ripens late and splended for commercial producers.

FREDONIA. This new variety ripens three weeks before Concord and has large bunches of blue-black grapes of a very high quality. It is a vigorous grower and high producer in a wide area.

R. W. MUNSON. Strong grower, perfectly healthy, producing clusters of black grapes. Tender and very juicy. Gives excellent satisfaction on market. Ripens just before Concord.

THOMPSON SEEDLESS. Vigorous growth that produces an abundance of greenish white compact bunches. It is adapted to a wide area and is a favorite on all markets and for eating at home.

WORLD'S HEAVIEST PRODUCING WALNUT

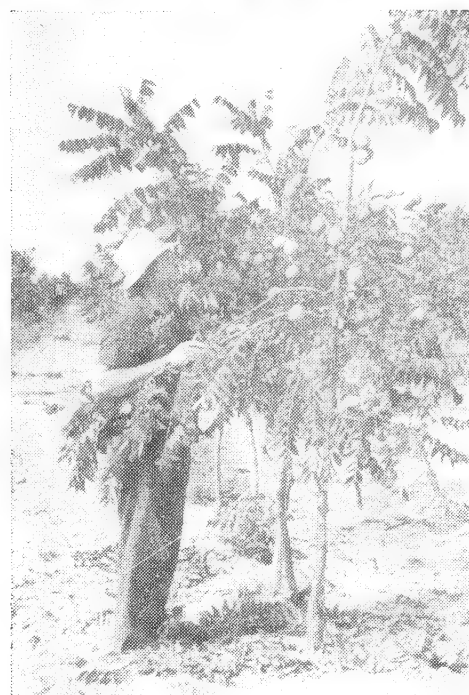

grow anywhere

THOMAS BLACK WALNUT

WOLFE'S THOMAS BLACK WALNUT

THOMAS BLACK is the walnut that you simply cannot afford to pass up. Everybody likes these delicious nuts at Christmas time, so here is your chance to grow your own and at the same time have a beautiful tree. THOMAS BLACK, in flavor and quality of kernel, is the choicest of all the walnuts. The shell is thinner and the kernel is much larger. THOMAS BLACK is a thrifty grower, symmetrical in shape and of luxuriant foliage. REMEMBER, our trees are already bearing.

Three-year-old Thomas Black trees growing in my orchard bear in their infancy. Note the size of the Walnuts hanging on the tree. Look like base balls.

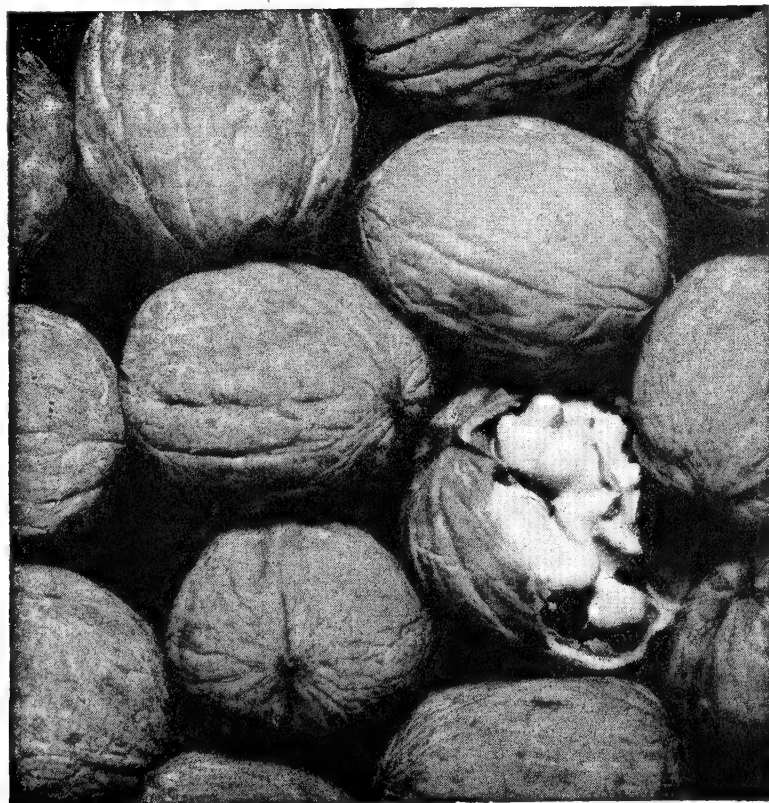

HELP YOUR TREES LIVE

"MONEY Does GROW On TREES"

ENGLISH WALNUTS

GRANDE ENGLISH WALNUT

A new English walnut for the Southwest that is a sensation. Our trees are loaded this year with the high quality nuts. The tree makes a beautiful shade for the home grounds.

The bark of Grande is very light in color, similar to Birch and the huge, bright green leaves lend an ideal atmosphere for a shade tree. We do not recommend our English Walnuts in cold climates.

WILSON WONDER ENGLISH WALNUT

Called the "Jumbo Walnut" because of its enormous size. Nuts often 2 inches in diameter. Makes a beautiful, fast-growing shade tree that will furnish your table with good eating nuts.

Order early as the demand is great and we only have a limited supply of all nut trees.

WOLFE'S 2 Yr. ROSES

WHILE THEY LAST

\$1.00 Each ... No. 1 Bushes ... 10 for \$7.95

I have tested and observed hundreds of varieties in my rose garden and trial grounds and this year I am offering the varieties that are outstanding for blooms and excellent in growth, hardiness, and long life. My roses are superior bushes; all of them bloomed last year. They are all well rooted and will make a wonderful show for you this year. My supply is limited but I will fill orders as long as possible.

1. **ROUGE MALLERIN.** One of the most beautiful red roses in existence; clear, dainty red with perfect buds opening into full glory throughout the season.

2. **SOUER THERESE.** This bright yellow rose is a favorite with all who have grown it. It blends with all roses and is a vigorous, strong grower.

3. **EDITH NELLIE PERKINS.** Long, pointed buds, double flowers of large size. Outside of petals beautiful red shaded with orange and inside a gorgeous salmon pink.

4. **TALISMAN.** Brilliant rose with a grand bud and long stems. Orange, pink, and rich yellow mixed with scarlet makes it a favorite for cutting. Constantly in bloom.

5. **CALEDONIA.** A beautiful white rose, exquisite long buds of ivory white, changes to purest white as it opens into a double bloom.

6. **ETOILE DE HOLLANDE.** Large crimson red flowers produced in great profusion throughout the summer months.

7. **EDITOR McFARLAND.** This lovely fragrant pink flowered rose has long stems and perfect buds. The finest pink rose ever produced.

8. **GOLDEN OPHELIA.** This exquisite rose has taken garden clubs by storm. Fragrant large yellow blooms and shapely buds.

9. **GOLDEN RAPTURE.** One of the seasons most dependable roses with long stems. Its yellow blooms make it a favorite in all gardens.

10. **RED RADIANCE.** The standby of all rose growers, blooms every day throughout the season. This rose deserves a place in every collection.

11. **PINK RADIANCE.** A sister to Red Radiance with all the fine quality that a rose must have to be on top of the list.

12. **DUPONT.** Glorious large yellow rose with long pointed buds that perfume the garden from early summer to late frost. A prize winner at all shows.

WOLFE'S DEW-BLACKBERRY

This wonderful berry is a cross between Dewberry and Blackberry. There is no more delicious fruit grown than WOLFE'S delicious DEW-BLACKBERRY. Pick these big, tempting berries from your own garden and eat them fresh with cream and sugar...in pies...in shortcakes...for sauces and jams.

Wolfe's Dew-Blackberries are easy to grow and are hardy most anywhere—just tip the roots the first year and they stand and handle like blackberry.

DEW-BLACKBERRIES are DROUTH-RESISTANT and FROST-RESISTANT and will produce a crop every year...1,000 to 2,000 gallons per acre. We shipped DEW-BLACKBERRY to 44 States last year.

Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart. DEW-BLACKBERRY ripens through May and June.

BOYSENBERRIES: YOUNGBERRIES and THORNLESS BOYSENBERRIES will be shipped after February 1, because they do not have sufficient roots to be transplanted early.

AUSTIN DEWBERRY

**WOLFE'S GIANT
NEW BOYSENBERRY**

This amazing new berry is huge... about one by two inches in size and has an amazingly rich flavor that makes everyone want more. Boysenberry is FROST-RESISTANT and DISEASE-RESISTANT.

It is sweet and juicy, yet amply firm to withstand shipping to market. It is ideal for freezing, and so far the supply of berries is not nearly equal to the demand for this choice, frozen delicacy.

THORNLESS BOYSENBERRY

These mammoth maroon-red purple berries often measure 1 1/2 to 2 inches long and nearly as wide. Borne in huge, loose clusters. Flavor a combination of Loganberry, Raspberry, Blackberry—better than any. Juicy, tangy, sweet and sub-acid. Delicious fresh, canned, in pies, jam, juice, etc. Absolutely thornless and practically seedless. Adapted to wide range of soils and thrives anywhere. Plant six to eight feet apart.

YOUNGBERRY

A wonderful berry produced by crossing the Loganberry and Dewberry. An exceptionally heavy producer; berries dark wine-red, of extraordinary flavor, tender, juicy and rich, and with no hard core. Unsurpassed for jams and jellies. The demand for this berry has been far in excess of the supply and everyone wants it. Ripens in May and is particularly well suited to this section.

GIANT Boysenberry

Boysenberry is a sensational new fruit introduced in California. It is a cross between the Loganberry, Raspberry and Blackberry. Imagine, if you can, a berry combining the best of these fruits in one giant, gorgeous wine-colored berry, with a distinct and delicious flavor you will never forget. That's Boysenberry!

In tests made by the U. S. Department of Agriculture, 50 berries have been known to fill a quart box; but a conservative number for the average crop would be from 75 to 85 berries.

Boysenberry is a highly profitable crop, and the cost of planting stock is now low enough that you can't afford to wait longer to get started. Plant this year and cash in on a big-money crop. Planted 8 ft. by 8 ft. six hundred plants will set an acre.

Boysenberry is perfectly hardy, and may be safely grown in the Northern States, as well as in the South.

THORNLESS BOYSENBERRY

ONE MILLION DOLLARS! COULDN'T BUY A BETTER BERRY than ROSSBERRY

"I have ten acres of
Rossberries in bearing
and I have never grown
a bigger money maker."

—J. B. Smith.

ROSSBERRIES AS THEY GROW—EASY TO PICK

"I have spent my life
growing berries and the
Rossberry is the hardi-
est and best of all ber-
ries."—Ed Girard.

Clint Boyd, with three
acres, says, "Rossber-
ries are superior to any
other berry I have ever
grown."

In quest for new and better varieties, I consider Rossberry one of my greatest finds. As told by the original grower, it was created by Luther Burbank and went undiscovered as a commercial berry for many years. It has now been tried along side of leading berries and without any question it is superior in every respect.—Ross R. Wolfe.

"So much better than
Boysenberry that I have
dug and reset with
Rossberries."

—Pate Martindale.

Rossberry has Everything

600 GALLONS PER ACRE

\$300 PROFIT PER ACRE

ROSSBERRY has everything
and promises to be the sensa-
tion of quick freezing. It's huge
in size, and has the combined
flavor of Raspberry, Logan-
berry and Blackberry. It fruits
first year after planting and
withstands cold and drouth. It
is remarkably free from dis-
ease. Such few seed it has are
soft and small. It is now being
grown in over sixty Federal
and State Experiment Stations.
It is the first berry to ripen
and a heavy producer. Grow-
ers say that it will produce
twice as many berries per acre
as any they have grown and
brings more on the market.

STRAWBERRIES WILL MAKE YOU MONEY--JOIN WOLFE'S MONEY MAKERS NOW!

I hope it makes your mouth water to think of Fresh Strawberries with cream and Strawberry Shortcake. Think of the preserves, too, and the jelly. Doesn't it make you wish you had your own strawberry patch? That's the way to have all you want and have them fresh, picked at the peak of their wonderful flavor. There's no such thing as too many, because your surplus will always be in big demand at attractive prices. Grow berries for your own use or for market. Set out 16 to 18 inches apart in 3½-foot rows. It will require about 7,500 plants per acre.

BIG THRIFTY PLANTS

I insist that my strawberry plants be young and healthy. They are fresh dug and shipped to you the ideal way—in an open-end package. I guarantee them to reach you in first class growing condition.

STRAWBERRIES—BLAKEMORE

Barrel of Strawberries and a Barrel of Fun

25 Klondike 25 Blackmore

Have strawberries for breakfast twice a week. Bore 40 1-inch holes in the side of the barrel and set 10 plants on top. Keep well watered. Bore small holes in bottom for drainage. Keep runners pinched off. EAT.

OFFER No. 13

\$1.50
Post-paid

THE NEW BLAKEMORE STRAWBERRY. This is a new berry that has been recommended highly by the Department of Agriculture. The Blakemore is firm, well colored, deliciously flavored—very productive and marketable fruit.

GEM EVERBEARING. This is the finest everbearing strawberry. New, large, fall-bearing berry. Mammoth berries. Eighteen of the larger ones fill a quart.

IMPROVED KLONDIKE. This variety is planted more in the Southwest than any one variety grown today. The Improved Klondike is bred up and is more productive than the old original Klondike.

Read what Dr. S. H. Yarnell, Head of the Horticultural Division, Texas Experimental Stations, says about TEXAS RANGER Strawberry: "The NEW TEXAS RANGER Strawberry, originated by Mr. E. Mortensen and released by the Winter Garden Substation of the Texas Agricultural Experiment Station, has been found by experimental tests and by commercial growers to excel both Klondike and Missionary."

TEXAS RANGER STRAWBERRY. This BRAND NEW berry is the better berry to plant, because: (1) It produces 25 per cent greater than either the Klondike or the Missionary; (2) it is a better shipper; (3) it produces twice as many plants; (4) it is more VIGOROUS; (5) it is thought to be more DROUTH-RESISTANT; (6) it has a much deeper and more inviting color.

ORCHARD**

Your income will increase every year from a pecan orchard. WOLFE'S trees are bearing when you get them.

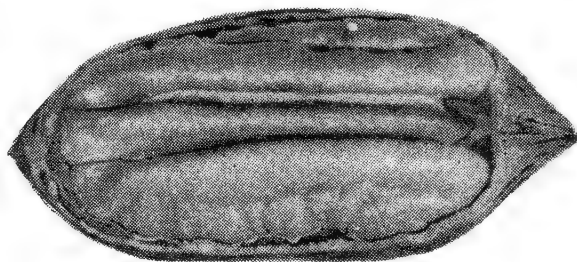

BURKETT—IT TURNS CENTS TO DOLLARS

**START YOUR ORCHARD TODAY—
IT IS NEVER TOO LATE**

Money DOES Grow On Trees

BURKETT. The Burkett is and will continue to be the leader of western varieties. Its flavor cannot be equalled. It is a regular producer of large, fat pecans that bring top market prices. As long as we have been in business, the market demand for Burkett Pecans has never been supplied. Plant Western Schley and John Garner with Burkett for perfect pollination.

WESTERN SCHLEY. The perfect cracker. As the photograph shows, it is a long, well-shaped, beautiful nut. The shell is thin and soft. The tree is remarkably healthy, strong grower, early and heavy producer. Western Schley is a Genuine Risien Gold Medal Pecan and REMEMBER, they are already bearing when we sell them.

SQUIRREL'S DELIGHT. An ideal pecan for sections having a short growing season. Oklahoma, New Mexico and Kansas are ideal states for this hardy pecan. The nut is long like Schley with a delicious flavor and fine quality.

DISTANCE FOR PLANTING PECAN TREES

35 feet by 35 feet gives 35 trees per acre
40 feet by 40 feet gives 27 trees per acre
35 feet by 70 feet gives 17 trees per acre
50 feet by 50 feet gives 16 trees per acre
60 feet by 60 feet gives 12 trees per acre

POLLINATION OF PECANS

Where you do not have native pecans it is better to plant some early pollen-shedding varieties with late pollen-shedding varieties to insure perfect pollination. Western Schley, Success, San Saba Improved and Squirrel's Delight shed their pollen early. Burkett, Delmas, Schley, Stuart and Mahan shed their pollen late.

SIZE OF HOLE FOR PECANS

In ideal pecan soils, use a post-hole digger, making the hole 10 inches wide and from 3 to 3½ feet deep. In hard soils dig a hole 3 feet square and 3 feet deep so that the roots can get started before reaching the hard soil.

SUCCESS

STUART

SUCCESS

This most popular Eastern variety is in demand. The nut is very large and oblong, with plump, smooth, creamy kernels that release perfectly from the thin soft shell. The tree is a vigorous grower and resistant to scab. It ripens after Stuart.

Forty nuts usually make a pound. One of the heaviest kernels of all pecans. Low headed spreading tree with nice foliage.

STUART

The Stuart comes nearer to being well suited to all sections of the country and all soils than any other variety. It is a good producer and a hardy, fast growing tree. The meat is sweet and brittle. It is one of the earliest ripening of all the large standard pecans.

Vigorous trees. Bear regular. Resist scab, early and heavy bearer, large well filled nuts.

EASTERN SCHLEY

This is the standard of excellence among pecans. The tree is healthy and it has made an excellent production record in the native pecan belts of Texas, Arkansas and Oklahoma in altitudes from 350 to 1,000 feet. Ripens early.

JOHN GARNER PECANS—THEY PAY

Note this beautiful pecan; what a thin shell, how perfect the big kernels, and the ideal shape. John Garner is about one-third larger than pictured above.

WOLFE'S GIANT MAHAN

JOHN GARNER

WILL OUT BEAR ALL OTHER PECANS

Plant your pennies and watch your dollars grow. It does not take a John Garner Pecan long to grow dollars out of pennies. I have fruited this great pecan along side of many, many other varieties during a period of fifteen years and it has made more money than any other. I have never been able to supply the demand.

PLANT YOUR PENNIES AND WATCH YOUR DOLLARS GROW

Pecans are an investment that will pay big dividends the rest of your life. A small investment in a pecan grove will make money for you and for generations to come. Put pecans in the proper soil and they will immediately double the value of your land.

WOLFE'S JOHN GARNER PECAN

The very finest pecan grown and will bear one-third more per tree than any other pecan. Garner produces nuts the first or second year after you plant them because our "YOUNG-BEARING" system makes them bear in the nursery rows. Garner is FROST-RESISTANT and one of the first pecans on the market. Everyone says it is the most beautiful pecan grown. It is the only true paper-shell—so thin it can be cracked with the fingers. The creamy, delicious kernels are extremely rich in oil, proteins, carbohydrates, vitamins and distinctive flavor. Plant in uplands of sections only at altitudes of 600 feet and up, on account of pecan scab, which attacks it in lower altitudes.

GIANT MAHAN

MAHAN WORLD'S LARGEST PECAN

Can you imagine a pecan so large that the nuts in the green clusters look like bananas on a tree? The nuts look like Schley but they are more than twice as large. It is a true paper shell and brings more money per pound than any other pecan.

I recently visited the United States Pecan Experiment Station at Shreveport, Louisiana, and asked Dr. Alvion what was their most profitable pecan and he said the Mahan. He showed me their production records over a period of several years and this variety had averaged approximately three times as many pounds as Stuart, Success, or Schley.

This variety has become increasingly popular due to the healthy, vigorous growing tree which makes one of the best shade trees grown due to its symmetrical-shaped top and the large, dark green leaves. Added to this feature, its high production of the largest nut grown makes it the most popular pecan on the market. While the nuts sometimes fail to fill, the kernels are always good. Adapted to all sections.

Wrap the trunks of Pecan and Walnut trees the first summer to protect against sun.

WOLFE PECAN TREES BEAR YOUNG

Many people from several states travel to my orchard every year to see my pecans bearing in the nursery row. My special system of budding enables early and heavy producers. Note the young tree in the picture at right, it has five mature nuts (John Garner) one year after dormant buds. Buy your pecan trees from Wolfe Nursery, Stephenville, Texas.

WOLFE'S PECAN TREES ARE DUG RIGHT—THEY LIVE AND BEAR YOUNG

WOLFE'S BEAUTIFUL SHADE TREES

ELM, CHINESE. I have one of these lovely trees in my yard that is 35 feet high and has a spread of 40 feet. The trunk is 16 inches in diameter at the age of 13 years. **Prices:** 2-3 ft., 45c, prepaid; 4-6 ft., \$1.25, not prepaid; 6-8 ft., \$1.95, not prepaid.

SYCAMORE, AMERICAN. This is one of America's most popular and satisfactory shade trees. It is hardy and resistant to root-rot. Grows 50 to 60 feet high. **Prices:** 2-3 ft., 35c, prepaid; 4-6 ft., \$1.25, not prepaid; 6-8 ft., \$1.95, not prepaid.

MIMOSA (Silk Tree). Has an umbrella-like top, feathery foliage and beautiful, fragrant, pink blossoms in the summer. The leaves fold up at night like a sensitive vine. This is one of our most beautiful trees and is hardy. **Prices:** 2-3 ft., 49c, prepaid; 4-6 ft., \$1.45, not prepaid; 6-8 ft., \$2.25, not prepaid.

WEeping WILLOW. I have the true Babylonian with branches that hang straight down. Adds an airy touch to a low spot around your home. Plant where it will get plenty of water. **Prices:** 2-3 ft., 35c, prepaid; 6-8 ft., \$1.95, not prepaid.

ELM, AMERICAN. Tall, stately, beautiful branches, spreading to lend grace to a shade. It often grows 60 feet tall. **Prices:** 2-3 ft., 39c, prepaid; 4-6 ft., \$1.25, not prepaid; 6-8 ft., \$1.95, not prepaid.

REDBUD or JUDAS TREE (Cecis Canadensis). Medium, irregular growing tree with heart-shaped leaves. An abundance of reddish pink blooms appear in April. **Prices:** 2-3 ft., 40c each, prepaid.

MAPLE, SILVER. A quick-growing beautiful tree which succeeds in most soils. Leaves light green, showing silvery white beneath, giving a beautiful effect. The tree transplants easily and grows quickly into well-shaped trees desirable for street or lawn. **Prices:** 2-3 ft., 35c, prepaid; 4-6 ft., \$1.25, not prepaid; 6-8 ft., \$1.95, not prepaid.

MAGNOLIA ACUMINATA (Cucumber Tree). This stately tree has spreading branches and a bold, broad, pyramidal crown. It is well suited to street or park planting. Rather inconspicuous, but fragrant green flowers occur in spring while long fruit, vaguely resembling small cucumbers, and handsome seven-inch-long leaves follow. It likes cool, rich soil and resents drought. **Prices:** 2-3 ft., 45c each, prepaid.

RED MAPLE. This magnificent native tree lends great beauty to the landscape in all seasons. The upright branches form a narrow crown and are clothed with green, red-stemmed leaves. In fall the leaves assume a red-orange color, equal in brilliancy to the Japanese maple. Its outline is quite picturesque in winter and in spring the tree is unusually attractive when the branches are lined with reddish or orange flowers. It grows well in many environments. **Prices:** 2-3 ft., 35c, prepaid.

MOSS LOCUST (Robinia Hispida), Tree Form Rose-Acacia. The same as shrub Rose-Acacia with the exception that this variety is grown in tree form. Loaded with clusters of pea-shaped, rose-pink flowers during June and July. **Prices:** Strong 2-3 ft. trees, 45c each, prepaid.

TULIP TREE (Lirodendron Tulipifera). One of the finest of our native trees. Tall growing, stately tree with smooth bark and large, irregularly shaped leaves of glossy green that make it ideal for quick shade. Blooms in late May and early June, bearing numerous tulip-like flowers, 2 to 3 inches long. **Prices:** Strong 2-3 ft. trees, 45c each, prepaid.

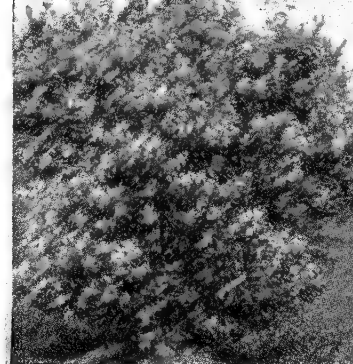

CHINESE RED BUD. Much like the American Red Bud, but with leaves more deeply heart-shaped at the base. Larger and more numerous rosy-purple flowers. **Prices:** 2-3 ft. trees, 40c each, prepaid.

WOLFE'S Flowering Shrubs

HARDY—EASY TO PLANT—SURE TO LIVE—LOW COST
NO ORDERS ACCEPTED FOR LESS THAN \$1.00

See them in **BEAUTIFUL COLOR** on pages 28-29

ABELIA. A beautiful evergreen with glossy foliage that blooms from May until frost with a mass of fragrant white and pink flowers. Silver foliage in the winter. **Price: 2-yr., 75c each, prepaid.**

ALTHEA (Rose of Sharon). Beautiful, double flowers in color varieties of rosy-red, white, pink or purple. Produced in profusion from about the middle of July to September. One of the finest and showiest of the mid-summer flowering shrubs. **Price: 2-3 ft., 65c each, prepaid.**

BARBERRY, RED LEAF. There is nothing so strikingly brilliant in hardy shrubbery as our genuine true red strain of Red Leaf Barberry. Its abundance of thick, purplish-maroon leaves glisten in the sun, contrasting with the green and yellow of other plants. Valuable for single specimens, corner groups, and solid border hedges. **Price: 9-12 in., 55c, prepaid.**

BRIDAL WREATH. Without doubt one of the most useful and most widely used shrubs in cultivation. Blooming in April and May, the plant throws out long branches that curve and droop to the ground, weighted with a mass of pure white flowers that suggest a fountain of snow. May be used for specimens, massed, or for hedges. **Price: 2-3 ft., 35c each; 3 for \$1.00, prepaid.**

CREPE MYRTLE. Beautifully fringed flowers borne in large panicles from July to November. For best results cut the tops back to a height of one to three inches above the ground after transplanting. White, pink and watermelon red. **Price: 1-2 ft., 35c each; 3 for \$1.00, prepaid.**

CYDONIA JAPONICA. An aristocratic shrub that attains from 4 to 6 feet in height and has spinous and extended branches. Its beautiful scarlet blooms appear before the leaves and are followed by elongated fruits of a yellowish-green color that gives it a claim to space about the garden entrance for the rare beauty it imparts. **Price: 2 ft., 75c each, prepaid.**

CORALBERRY. A native shrub which is dwarfish in growth, very hardy, and drought-resistant. Has small, insignificant flowers in the spring and a wealth of coral berries in late fall and winter, remaining until spring. **Price: 2 ft. plants, 30c each, prepaid.**

DOGWOOD (Red or White). As pictured on page 28. **Price: 2-3 ft plants (Red), 95c each; (White) 65c each, prepaid.**

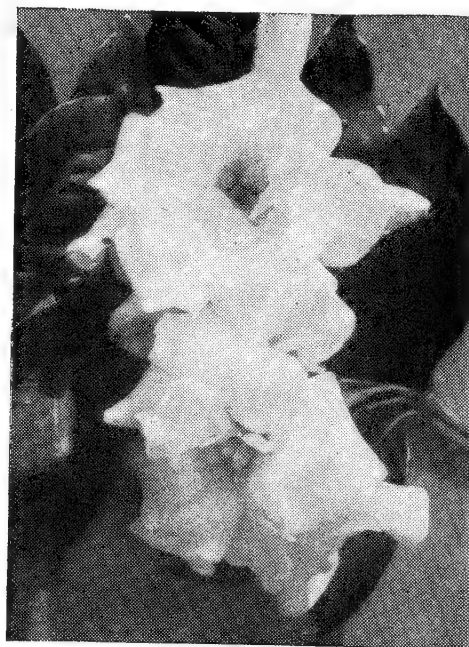

FLAME HONEYSUCKLE. Pictured on page 29. Blooms every month in the year and is a heavy blooming plant. The beautiful red and rich yellow blooms make a dainty tassel for the shapely bush. **Price: Each, 85c; 3 for \$2.00, prepaid.**

FLOWERING PEACH (Red). Most beautiful ornamental trees. Covered completely with double carnation like blooms in the spring followed by green, glossy foliage. A mass of beauty. **Price: 2-3 ft., 65c each, prepaid.**

FORSYTHIA (Golden Bell). Like the picture this fiery yellow shrub is a splendor of golden yellow flower mass in great profusion in April. **Price: 2-3 ft., 65c each, prepaid.**

HONEYSUCKLE (Red Bush). From June to October it is covered with hundreds of scarlet flowers. Excellent for borders. **Price: 2-3 ft., 40c each, prepaid.**

GARDENIA. Needs no description. See it pictured below. This small white scented flower is popular from coast to coast. **Price: 2-yr. plants, 75c each, prepaid.**

HARDY GARDENIA

EUONYMUS JAPONICA. A waxy, glossy, hardy evergreen that may be pruned or will cling to walls. **Price: 2 yr. plants, 55c each; 3 for \$1.25, prepaid.**

PYRACANTHA (Lelandi). Commonly called firethorn. Tall, upright growing evergreen covered with orange berries during the winter months. Leaves are dark shiny green. Endures extreme cold. **Price: 9-12 in., 60c each, prepaid.**

NANDINA. A beautiful and popular evergreen with bright red berries, bright red leaves through cold weather. Should be in every planting. Use under windows and mix in with other plants for autumn beauty. **Price: 6-12 in., 45c each; 3 for \$1.25; 2 yr. plants, 75c each, prepaid.**

LILAC (Common Purple). Grows tall and is covered with color that only Mother Nature can provide. Good as a hedge. **Price: 2 yr. plants, 55c each, prepaid.**

MOCK ORANGE. As pictured at top of page 28, this beautiful plant blooms in May and June and almost any day during the summer one can see flowers. Mother Nature's perfume of the garden. **Price: 2-3 ft., 35c each; 3 for \$1.00, prepaid.**

PINK ALMOND. As pictured on page 29, is a lovely shrub that will provide a dainty shade of color to your landscape. Adapted anywhere. **Price: 2 ft. plants, 65c each, prepaid.**

PYRACANTHA (California). Commonly called the fire-ball. Tall, upright, and literally covered with red berries during the winter months. Used in specimen plantings. **Price: 9-12 in., 65c each, prepaid.**

RED BUD. Springs early harbinger, blooms in April and a mass of little pink flowers completely covering the limbs of the trees. See it in color on page 28. **Price: 2-3 ft., 40c each; 3 for \$1.00, prepaid.**

RED WING. As pictured on page 29, this South American plant from the land of color, is the most outstanding shrub of recent years. A profusion of fiery color the entire summer. Fine for cut flowers because they keep for several days. Only a limited number available this year. **Price: 2-3 ft., \$1.00 each, prepaid.**

WEIGELA (Rosea). Graceful, arching spread of beautiful blooms; foliage arranged by nature as a bouquet. See it in color on page 28. This pink lady should be planted in part shade. **Price: 2-3 ft., 45c each; 4 for \$1.50, prepaid.**

WISTERIA (Purple or White). Magnificent climber and becomes more beautiful each year. Can be trained to make a tree. Will bloom the first year. We have the most popular purple or white. See page 29 in color. **Price: 1 yr. plants, 55c each, prepaid.**

PHOTENIA (Holly Leaf Type). One of our most beautiful broad-leaved evergreens. The leaves are dark, broad, long, with serrate edge. Beautiful yellow, fragrant flowers in the spring. **Price: 2 yr. plants, 55c each, prepaid.**

YELLOW JASMINE. Its branches are beautifully arched, overhanging the ground from the inner edges. Foliage dark green, covered with gorgeous little yellow flowers all summer. **Price: 2 yr. plants, 75c each, prepaid.**

QUEENS WREATH VINE. A long, slender vine that produces racemes of pink flowers on grape-like clusters. Blooms from mid-summer until late frost. **Price: 2 yr. vines, 35c each; 3 for \$1.00, prepaid.**

HONEYSUCKLE VINE. Evergreen honeysuckle with yellow and white fragrant flowers. **Price: 2 yr. vines, 80c each, prepaid.**

"Money Does Grow on Trees"

BAKER ARBORVITAE

BERKMAN'S GOLDEN ARBORVITAE

BONITA ARBORVITAE

WOLFE'S EVERGREENS for Year Around Beauty

EVERGREENS GROWN IN WOLFE'S NURSERY PROPAGATED BY EXPERTS

BABY EVERGREENS. These baby evergreens are adapted to a large portion of the United States. They transplant safely and are easily shipped by mail or express. They will soon grow into valuable specimen in landscaping your home. Notice the low price and the small amount invested. You will enjoy watching them grow.

BAKER'S PYRAMIDAL ARBORVITAE. Compact and pyramidal, with dark green foliage. **Price: 12-18 in., 75c each, prepaid.**

BERKMAN'S GOLDEN. A new dwarf, compact, almost globular arborvitae with yellow-greenish foliage tipped with gold in spring. Grows to height of 6 feet. A background for the different "color scheme." **Price: 10-15 in., 85c each, prepaid.**

ITALIAN CYPRESS. A tall columnar growing tree with soft, dark green foliage. Will attain 20 feet in height. Use with Pfitzer Junipers on corner and to build up tall lines. **Price: 15-18 in., 75c each, prepaid.**

PFITZER JUNIPER. One of the most handsome and popular spreading Junipers. Beautiful silver green foliage. Ideal for corner planting and for filling in borders. Plant with Italian Cypress for attractive effects. **Price: 6 to 8 in., 65c each, prepaid.**

BONITA ARBORVITAE. A globe-shaped, dwarf-growing plant with dark green foliage, grows 3 feet high. Lends a graceful touch to an entrance. **Price: 8-12 in., 85c each, prepaid.**

EXCELSA ARBORVITAE. Broad, compact grower with tapering top. Foliage a rich green. One of the hardiest of the Oriental type and one of the most beautiful. **Price: 12-18 in., 75c each, prepaid.**

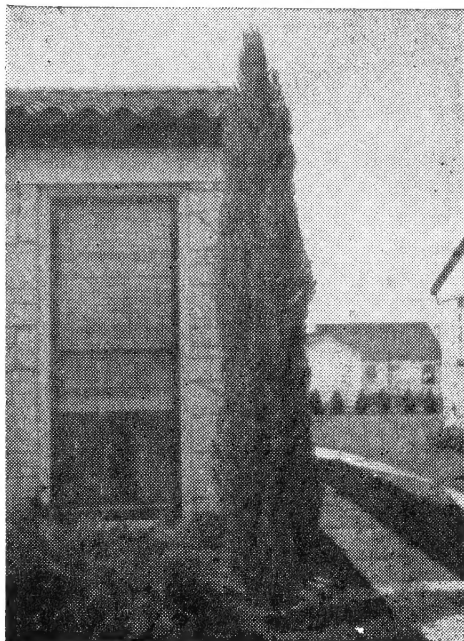

**MAIL ALL ORDERS DIRECT TO
WOLFE'S NURSERY, Stephenville, Texas**

Prices in this catalog are effective September 15, 1945 and supersede all previous quotations.

Modern landscape demands these beautiful evergreens — their elaborate foliage pattern, and rich color blends.

WOLFE'S Tasty Figs

EAT 'EM THIS YEAR

You can grow figs in your garden, around your home, against your garage, in the orchard, or on a terrace and have delicious eating figs all summer long the first year. Figs are the most healthful fruit grown and every family should have three or four fig plants for plenty of fresh figs.

OFFER No. 12—4 one-year FIGS. Postpaid only \$2.00

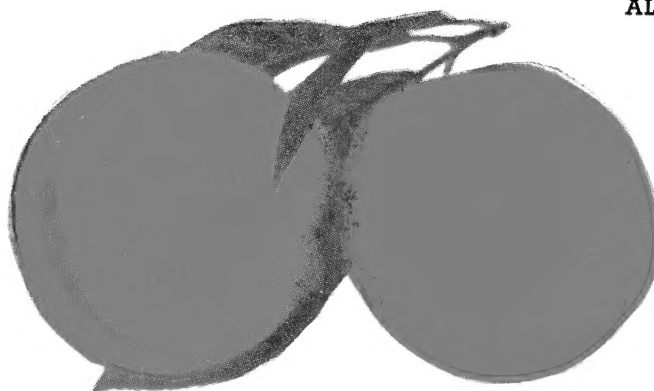

WOLFE'S EVERBEARING FIG (RAMSEY). Ripens its fruit from July until frost and each tree will produce fruit first year. Bears on its new growth. Light straw to brown in color, medium size and very sweet. Does not crack easily. La Reunion Orchard of Grand Prairie made \$1,600.00 from four acres of this fig in one year. Wolfe's Everbearing Fig (Ramsey) is extra good for preserves or eating fresh.

MAGNOLIA. It is not necessary to plant two varieties of figs for good results. The Magnolia produces large brownish straw-colored fruit and will bear the first year after planting. We offer only the best varieties in all fruits.

Delicious BEAR YOUNG

PERFECTION. Blooms late and ripens early. The fruit is the largest grown and the tender delicious meat is ideal for home use. Many of our Apricot trees bore fruit in the nursery row this year.
